Incidents of VVIP Aircrafts developing Snags

286. SHRI BHAGABAN MAJHI: Will the Minister of CIVIL AVIATION AND TOURISM be place during 1993 and 1994:

(a) the number of incidents of VVIP Aircrafts developing snags has taken place during 1993 and 1994;

(b) whether such incidents are on the increase;

(c) if so, the reasons therefor;

(d) the steps taken to investigate the matter; and

(e) the facts revealed by such investigations incidents-wise?

THE MINISTER OF CIVIL AVIATION AND TOURISM (SHRI GHULAM NABI AZAD): (a) There were two instances of snags reported on VVIP charter operations by Air India during the year 1994. There was no such incident in 1993.

(b) No, Sir.

(c) to (e) The details are as follows:—

(i) Air India B-747 aircraft VT-EGC while operating extra section flight AI-1 from Washington to Paris on 20-5-94 with Hon'ble Prime Minister of India on board, had developed snags due to shattering of cockpit wind shield. The aircraft made a safe lading at Paris. Investigation by a Committee of Inquiry into the incident revealed that shattering of outer pane of aircraft L 1 window was due to electric arcing between wind shield layers which occurred due to moisture ingress through cracks in the wind shield's weather seal.

(ii) Air India B-747 aircraft VT-EFU operating VVIP flight from Delhi to Beijing on 21.10.94 with Hon'ble Vice

President of India on board, had to return to Delhi as its right hand wing landing gear door did not close on landing gear retraction. The aircraft landed safely at Delhi airport.

Investigation into the incident, conducted by Directorate General of Civil Aviation revealed that improper rigging in cable control of alternate extenson system of right under carriage was responsible for the incident.
